

**Association of Chartered Physiotherapists in  
Oncology and Palliative Care  
Research Directory – Issue 6: Summer 2020**

Welcome to the sixth edition of the ACPOPC research directory. Each year we collate a list of recent research publications that are relevant to physiotherapy in oncology and palliative care. This year's edition has been delayed, so I apologise to those of you waiting to receive this latest list. As per recent years, the number of publications relevant to our work is ever increasing. This year's list includes plenty of articles to learn even more about the conditions we assist people to live with, and studies of new or adapted interventions that may be useful for considering for service development work. It's particularly interesting to see a number of articles on e-health or telemedicine topics, which are of more significant importance to all of us now!

We would recommend that you read these articles critically and consider their application to your practice. These articles have not been critically reviewed by the ACPOPC Committee. For guidance on critical review of articles click this link for the [CSP's guidance](#). The articles have been divided into sections to help members find those most relevant to them. A clickable link to each article's abstract is at the end of the citation, those with free full texts are labelled with [Open Access](#) hyperlinks. If you require access to an article which does not provide free content do contact the research officer, as we may be able to source it for you. You may find it helpful to pick some of the articles for journal clubs, either with other therapists at your place of work or your ACPOPC regional network.

As always, it is brilliant to see our ACPOPC members listed as co-authors on more publications this year. Well done to everyone on sharing their work! If anyone has work that you would like to share with members, please consider submitting an article to the ACPOPC journal, you can find [guidance](#) on our website. If you would like to know more or discuss your potential contribution, please do get in touch with the research officer.

Finally, these research directories are a pleasure to produce but do take considerable effort, so it would be amazing to hear your feedback on how useful members feel this resource is or suggestions on how it could be changed or improved.

Please do share with us how you use the list or offer any feedback by emailing or tweeting us @ACPOPC.

Orla McCourt – ACPOPC Research Officer [o.mccourt@nhs.net](mailto:o.mccourt@nhs.net)

**General Palliative Care**

Høgdal, N., Eidemak, I., Sjøgren, P., Larsen, H., Sørensen, J. and Christensen, J. (2020) 'Occupational therapy and physiotherapy interventions in palliative care: a cross-sectional study of patient-reported needs', *BMJ Support Palliat Care*. [Abstract](#)

Klarare, A., Hansson, J., Fossum, B., Fürst, C. J. and Lundh Hagelin, C. (2019) 'Team type, team maturity and team effectiveness in specialist palliative home care: an exploratory questionnaire study', *J Interprof Care*, 33(5), pp. 504-511. [Abstract](#)
